2. OVERVIEW OF THE IMPLEMENTATION OF THE COOPERATION PROGRAMME (Article 50(2) of Regulation (EU) No 1303/2013 and Article 14(3)(a) of Regulation (EU) No 1299/2013)

Key information on the implementation of the cooperation programme for the year concerned, including on financial instruments, with relation to the financial and indicator data.

In 2022, Programme implementation meetings, coordination and support to beneficiaries were performed in presence and through virtual platforms.

1 Monitoring Committee meeting occurred, 9 written procedures were launched, two periodic reports were given for information on Programme implementation to the MC. Working Group on fraud risk met once in December, WG Evaluation worked through emails.

The Programme continued a good performance, through its 63 financed projects (367 beneficiaries included technical assistance). In 2022, most projects closed: 26 projects received the final payment, 2 are pending for verification on Final Report, 15 are in wait for last validation, 11 still have to submit the last report, 9 are still ongoing (PRIMIS, C3B, TechMOlogy, WASTE DESIGN, TA projects), with the following overall figures: total contracted funds € 94.754.804,74 (ERDF € 79.664.817,67), i.e. 102,8% on Programme financial plan; validated expenditure € 84.007.504,42 (ERDF € 70.841.696,08) being 88,7% on total contracted amount.

See below the performance per each project typology.

The n+3 2022 was overreached, target 2023 was also approached with 2022 validated expenditure.

At project level, the pandemic brought the need for projects modifications/extensions.

#### **Programme modification**

All output indicators are reached. Through WP 52, Programme and Annex IX were modified and submitted in SFC on 19 December 2022. EC's approval is expected in 2023. Modifications regarded: over-reached output indicators, result indicators' baselines, targets and sources of data no longer in use, amendment to Financial Plan where the national contribution to two Slovene TA projects has been lowered to foster absorption of ERDF. More details in section 5 and in the notes for each indicator within tables in section 3.2.

#### **Projects:**

The financed 63 projects have consolidated mature crossborder partnership experiences, strengthened the cohesion of Programme area contributing to removal of obstacles to cooperation in all sectors and benefitting the whole community while disseminating best practices at EU level well beyond borders of the area.

#### **Standard**

**Call n. 1-2-3-4/2016** – Out of the 27 ended projects (final rate of validated expenditure 96%), 26 received final payments, 1 is pending verification on final report for request for integrations/clarifications.

Targeted call 07/2019 – Out of 19, 3 (C3B, TechMOlogy and WASTE DESIGN) are still ongoing, 7

EN 4 EN

(AQUAVITIS, CATTEDRA, CONSTRAIN, DURASOFT, FORTIS, ISE-EMH, TRETAMARA) are waiting for last validation, 9 need to submit the last report (average validated expenditure of 85%).

#### **Strategic**

All 10 ended, except from 1 (PRIMIS), 2 (CROSSIT SAFER, Merlin-CV) need to submit the last report, 7 are in wait for last validation (average validated expenditure of 91%).

#### <u>ITI</u>

Both ITI projects ended (average validated expenditure of 80%, 88% for Salute – Zdravstvo and 71% for Isonzo-Soča. Both still need to submit the last report. For ISONZO-SOČA lots of investments[MAM(1] costs are reported therein, related to the works for the walkway on the Isonzo river and for crossborder cycle/pedestrian paths.

#### <u>TA</u>

TA projects averagely reported 66% of their costs.

#### Communication

The Programme managed several communication initiatives, infodays and workshops both on 2014-20 and 2021-27 Programme (and participation to INTERACT and projects' webinars). In May, the Programme Annual Event 2022 (61 attendees in Caorle) was dedicated to Green perspectives for Interreg Italy-Slovenia. The EC Day focused on "Discover European projects and future opportunities" with 337 attendees. It launched the new 21-27 Programme while giving space to 14-20 projects with conferences held in the form of dialogue on the new 21-27 programming topics and on 14-20 projects outputs complemented by the "Interreg Cooperation Fair" as practical demonstrations of the funded products and activities (e.g. small experiments, use of electric bikes and cars, demonstration stands, photo exhibits, virtual reality, promotional materials and dissemination videos). Some project partners were also involved through the "Interreg Stories" in an interactive interview well moderated around four topics: innovation, sustainability, environment and governance. Some results were highlighted as potentially worth to be capitalised, e.g.: international HUBs research centres/hospitals, transregional clinical trials, dissemination of nanotechnologies; smart sustainable mobility and crossborder public transport connections; community engagement in energy efficiency, crossborder models of assistance to elderly and of healthcare services; establishment of the cross-border geopark, among others. In October, a workshop was promoted at the European Week of Regions and Cities (43 attendees) on "Crossborder pilot actions to boost innovation in the health system through data sharing". The Programme hosted 2 IVY volunteers who actively contributed to an enormous increase in the promotion and communication of Programme in social media (Twitter, Facebook, Instagram, YouTube and LinkedIn since August 2022).

#### **Audit**

30 projects and TA were audited, resulting in the 1st and 2nd sampling EUR 712.71 and 11,772.27 of ineligible expenditure respectively regarding 4 and 3 PP. The error rate at 1,8% (0,08 - 1st sampling; 1,72 - 2nd). No System audit was performed as the whole management and control system had already been assessed with conclusion on absence of particular risk(s). The good functioning of the management and control system was

therefore again confirmed.

#### **Macroregional strategies**

Some projects were labelled as flagship projects by the Italian Government for the quality of their results and their potential to produce significant changes to territorial challenges in light of their relevance and sustainability: INTERBIKE II, CROSSMOBY for Mobility and Transport, Salute Zdravstvo on research, innovation and health, CLEANBERTH on environment.

#### 4. SYNTHESIS OF THE EVALUATIONS

In 2022 is due the **Third Extensive Evaluation Report**, "Summary of assessments and contributions to the achievement of the Thematic Objectives/Intervention Plan goals. Contribution of the Programme to the 2020 EU Strategy". Nevertheless, in its Methodological Note, it was agreed the attempt to include in the mentioned Evaluation Report the maximum number of projects with concluded activities. For this reason, the final release of the Report has been postponed at February 2023.

Its Methodological Note was approved by the Managing Authority on 23/04/2022.

The first release of the Report was shared with the Working Group in November.

The Report includes a comparison with the 1st and 2nd Extensive evaluation report findings, with a focus on projects, follow-up on I.T.I. projects (compared to the status in the Specific thematic report) and on project's coherence with EU Green Deal objectives and in particular on "Farm to Fork" strategy.

According to Art. 114 of the CPR, in December a **Summary of the major evaluation findings** has been drafted and sent to the Monitoring Committee and to the EC through SFC (it does not include the findings of the mentioned Third Extensive Evaluation Report as its final release did not occurred in 2022).

#### 5. ISSUES AFFECTING THE PERFORMANCE OF THE PROGRAMME AND MEASURES TAKEN

#### (a) Issues which affect the performance of the programme and the measures taken

During 2022 the Programme did not encounter any particular critical issue affecting its performance.

It is worth to detail that with WP 52 it has been approved the modification of the Programme and its Annex IX for two reasons:

The first is the modification of the Technical Assistance projects managed by Slovene Programme partner in order to maintain the absorption of the ERDF funds by lowering the national contribution to both TA projects.

The second modification regards the modification of Programme indicators. As for result indicators, out of a desk analysis, some baselines, targets and sources of data as initially adopted needed to be changed, because no longer in use and no more comparable nor possible to be valorised for the purpose of Programme's closure. As for output indicators, out of the analysis on the achievements and declared targets by all the projects, some Programme targets were underestimated therefore values of the Programme common output indicators have been changed.

(b) OPTIONAL FOR LIGHT REPORTS, otherwise it will be included in point 9.1. An assessment of whether progress made towards targets is sufficient to ensure their fulfilment, indicating any remedial actions taken or planned, where appropriate.
