# STANDARD PROJECTS (CALLS 1-2-3-4 / 2016)

## Overview on state of projects closure

Out of the 27 standard projects concluded under Calls/2016, 26 received their final payments within 2021/2022. Only 1 project (FISHAGROTECH), concluded in 2021, is still under control as financial modifications needed to be implemented at the end in order to optimize project expenditures and final certificates have been issued (or still have to be) late after the project end date.

# STRATEGIC PROJECTS (CALLS 5-6 / 2018)

Strategic projects - prolonged to 2022 due to persistent pandemic situation which slowed down cross border planned activities - are almost completed. In general, thanks to prorogations and to easing of rigidities imposed by Covid-19 restrictions, strategic projects had improved their financial performances and capacity to implement activities.

# STANDARD PROJECTS (TARGETED CALL 7/2019)

## Financial performance

Almost all standard projects requested for a time extension due to the pandemic. Thanks to the approval of those extensions and financial modifications, projects were able to carry out their activities without delays. Most of these projects were completed in August 2022
