

NEWSLETTER BEE DIVERSITY #2

Improvement of biodiversity through innovative management of ecosystems and monitoring of bees.

The BEE-DIVERSITY project intends to create an innovative cross-border system for the improvement and monitoring of biodiversity in habitats, which allows the improvement, sustainable and integrated management of ecosystems, with a specific focus on bees and on the relationship between agricultural practices and the vitality of bee populations.

The work is carried out in Natura 2000 areas with the direct collaboration of owners and management companies and stakeholders (farmers, beekeepers, technicians, etc.).

The 5 partners of the Interreg BEE Diversity project are Italian Veneto Agriculture - Veneta Agency for Innovation in the Primary Sector, Pordenone Technological Pole Andrea Galvani, University of Udine, and Slovenes BSC, Poslovno podporni center, d.o.o. and Univerza v Ljubljani / University of Ljubljana
