The project aimed to preserving, developing and promoting the cultural heritage of the great composer and violinist, Giuseppe Tartini, who was born in Piran in 1692, being also a scientist, technologist and renown professor of European fame in the Age of Enlightenment.

Outstanding results have been achieved: the recovery of the identity of Giuseppe Tartini as a prominent actor of his age in the European arena; the digital accessibility of his musical and narrative heritage, previously scattered and unedited; the design of the Tartini Route as a musical tourism path between Piran and Padua; the renovation of Casa Tartini and the new exhibitions in Piran, Trieste and Padua; the creation of Tartini Junior as the space for the youngsters to meet Giuseppe Tartini fascinating life.

All these items are feeding the brand Discover Tartini.

Its visual identity first shapes the **discovertartini.eu** website as the **multilingual repository of the project outcomes and the global platform for a new wave of studies and performances of Tartini**.
