<b>Main focus</b> The ekscenter is strategically located in the Nova Gorica and cross-border area, as a center for promoting economic development and social innovation. Already in the start-up phase, through key projects EMindS, MAST, DIVA and konS, it brings concrete results and methodological solutions. It creates an environment that encourages young people, entrepreneurs, engineers, researchers and artists to play an active role in the development of the region. Over the next ten years, it will develop at least 500 top, technologically and methodologically expert talents who will connect entrepreneurship with the arts and creative sectors, thus bringing at least 100 new services, initiatives and products to the area.	<b>Main focus</b> Huture Space is intended for business-oriented innovations in the fields of <b>business informatics, tourism 4.0, heritage digitization, etc.</b> , using a <b>supercomputer (HPC), Internet of Things, sensorics, processing of large amounts of data (big data), AR/VR/XR, advanced modeling...</b> ; from idea generation to experiencing the final creation, whether that may be performances, workshops, artistic installation, proof-of-concept or prototype of an improved or new product, service or social innovation.	<b>Main focus</b> Creative factory in collaboration with top experts, organize a variety of events (seminars, workshops, meet ups) for different target groups. The creative community has two laboratories available for development projects, namely XR lab for projects in the field of augmented and virtual reality, and Future lab for projects in the field of smart and digital solutions. It is also possible to rent space together with the team to manage team buildings, hackathons, creative camps and coworking. One of the main activities is also themed evenings aimed at discovering trends and challenges in the future.	<b>Main focus</b> Creative room is a sandbox for companies, who are taking first step in to creative thinking. Here they can in a creative environment away from their corporate everyday apply and test different methodologies like Design thinking. Room is equipped with modular furniture allowing various setting from classroom, islands for group work or even auditorium. Walls are set for writing to really allow you be creative. And there is a small living room in front of the room to help you get in the right spirit.	<b>Main focus</b> The creative space will be used for seminars, workshops, meetings, coworking, project development that will support creative processes for different target groups.	<b>Main focus</b> TočkaKREA/KREApont is a crossroads of innovative creative meetings with the aim of transferring knowledge and experience between different professionals. It is a point of intersection where the creatives acquire the entrepreneurial knowledge and where entrepreneurs enrich their products and services in a creative way. Special attention is paid to the learning process, especially of young people.	<b>Main focus</b> The hub's aim is favouring creativity-driven product/process innovation in SMEs, according to an open innovation logic.	<b>Main focus</b> The Hub encourages SMEs, CCIs, and every other interested stakeholders and players, to create, explore and share. It promotes participation to DIVA activities, initiatives and to DIVA call, focusing on Venice province and Veneto region. It provides support and expertise to facilitate and increase the collaboration, networking and crossfertilization between CCIs and traditional SMEs, through matching and knowledge empowering initiatives focused on creative working methods. It moreover supports transnational cooperation among CCIs and SMEs both from Italy and Slovenia.
